

TRAVELERS' RAILWAY GUIDE.

Central Vermont Railway.

Trains leave Barre for White River Junction and Boston, and vice versa, as follows: Barre to White River Junction, 7:30 a. m. and 11:30 p. m.; White River Junction to Barre, 8:30 a. m. and 12:30 p. m. Trains leave Barre for Burlington, St. Albans, Montreal and New York at 7:30 a. m., 1:00 p. m. and 11:30 p. m.

Montpelier & Wells River Railroad. Trains leave Barre for Wells River, connecting at that point with trains going north and south, at 10:30 a. m., 12:30 p. m. and 7:30 p. m. The 12:30 p. m. train connects with train for Boston, and north for Lisbon, Litchfield, Fairbairn and Litchfield, also with Montreal express, and the 7:30 p. m. train connects with St. Johnsbury train.

Trains leave Barre for Montpelier at 1:05, 10:30 a. m., 12:30 p. m., 4:15 and 8:45 p. m.

Electric Street Railway.

Cars leave Barre for Montpelier at 11 minutes of the hour, and for Montpelier for Barre on the hour and half hour until 10 p. m.

PUBLIC LANDS CLASSIFIED IN JUNE.

Work of the Geological Survey on Coal Lands, Etc.

During the month of June the geological survey reported the classification of 1,244,501 acres of coal land and 1,206,655 acres of noncoal land. The sale price of the coal land was fixed at \$80,000,000. The minimum price fixed by the law for the same land is \$14,300,000.

Withdrawals and Restorations. Withdrawals were made covering 1,350,864 acres of coal land and 3,600 acres of oil land. Restorations were made of 1,206,800 acres of withdrawn oil land in Louisiana.

Land Recommended for Designation.

Under the enlarged homestead act 2,751,933 acres of land were recommended for designation in the states of Wyoming, Montana, New Mexico, Colorado, Washington, Oregon, and Utah. Twenty-nine petitions under this act were disposed of and 49 were pending at the end of the month, many of which were awaiting additional showing by the applicants.

Mineral Land in Idaho Classified.

In the Musselshell Group placer claim, situated in the Clearwater national forest, Idaho, 800 acres were classified as mineral land, and 1,430 acres as non-mineral land.

Appropriations for the United States Geological Survey.

The appropriations for the work of the United States geological survey are carried in an act of Congress popularly called the "sundry civil bill." The act making appropriations for the fiscal year ending June 30, 1911, contains items for the survey's work aggregating \$1,750,000. This is \$200,000 less than the amount appropriated for the survey for the fiscal year 1910, but the work of analyzing and testing fuels and the investigations of the causes of mine accidents were transferred from the survey to the newly created bureau of mines, and the tests of structural materials were transferred from the survey to the bureau of standards, with consequent transfer of appropriations.

An increase of \$75,000 was made in the appropriation for geologic work and of \$50,000 for stream gaging.

CABOT.

Mr. and Mrs. P. D. Ladd and children of Barre and Mrs. Katherine Stone Preston of Montpelier, Pa., are visiting at the home of their mother and brother for a few weeks.

GRANITEVILLE.

There will be a social dance in Miles' hall Saturday evening, July 23. First-class music will be furnished. General admission 25c.

These Pies of Boyhood.

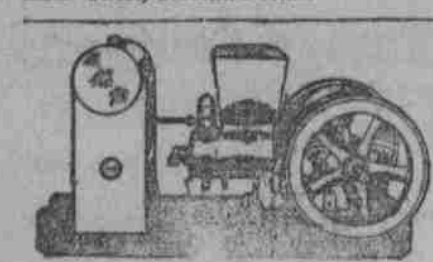

How delicious were the pies of boyhood. No pies now ever taste so good. What's changed? The pie? No. It's you. You've lost the strong, healthy stomach, the vigorous liver, the active kidneys, the regular bowels of boyhood. Your digestion is poor and you blame the food. What's needed? A complete toning up by Electric Bitters, of all organs of digestion—stomach, liver, kidneys, bowels. Try them. They'll restore your boyhood appetite and appreciation of food and fairly saturate your body with new health, strength and vigor. 50c at the Red Cross Pharmacy.

Notice.

All parties owing money to S. J. Segel & company, the clothing, will please call and settle same at once, in the Arcade block, corner of Main and Pearl streets, next door to Dreamland theatre.

REST AND HEALTH TO MOTHER AND CHILD.

Mrs. Winslow's Sore Throat Syrup has been used for over 20 years by millions of mothers for their children while suffering with CROUP, COUGHS, BRONCHITIS, ALLAYS INFLAMMATION, CURES WIND COLIC, and is the best remedy for DIARRHEA. It is absolutely harmless. Be sure and ask for "Mrs. Winslow's Sore Throat Syrup," and take no other kind. Twenty-five cents a bottle.

Wanted, in every town in Vermont a good agent to take orders for specialties. The work is suitable for ladies, as well as men.

C. H. TAFT, State Manager, Randolph Center, Vt.

JEDDO COAL

costs a little more than good coal, but the extra quality sticks out over it. See it before you place your order, and order now, as the price will advance soon.

RANDOLPH.

Howard-Priest Marriage Occurred Yesterday Afternoon.

A very pleasant wedding took place on Wednesday afternoon at 3 o'clock, when Roy, youngest son of H. H. Howard, and Eva, daughter of Mr. and Mrs. John Priest, were married by Rev. J. Wallace Chesbro, pastor of the Federated church. The wedding was celebrated at the home of the bride, and the decorations were arranged very artistically, making the place an attractive one for such an occasion. The bride was beautifully gowned in white and was attended by the immediate families only. After a short wedding trip, Mr. and Mrs. Howard will return and reside on the farm in Braintree, on which the groom has resided for several months.

A daughter was born Sunday, July 17, to Mr. and Mrs. George Bruce.

Miss Evelyn Denney is suffering from some disease of the eyes, which gives her much discomfort.

Mr. and Mrs. Justin Holman went to Highgate Wednesday to spend a few days at Camp Randolph.

Una Allen has gone into the bank to work, as Fred Copeland, the assistant cashier, is in poor health.

Miss Ellen Maginnis has been for two weeks at the home of Mrs. Mary Carr, but expects to leave town Friday.

Miss Sadie Lamb, who has been for several weeks with her sister, Mrs. W. B. Viall, left here Wednesday for Northfield.

Mr. and Mrs. Will Blodgett and daughter, Susie Blodgett, are here from Connecticut for a short vacation with friends.

Mrs. Spaulding from Washington, D. C., is passing a few weeks with her brother, James Hutchinson, who is in feeble health.

Mrs. Clara Averill, who has been in St. Albans for several days visiting her daughter, Mrs. Harry Chadwick, returned Tuesday night.

G. B. Emery and family have been in Williston since Tuesday, visiting Mr. Emery's father, Rev. George A. Emery, of that place.

Miss Emma Gates, assembly president of the order of the Hebeahs of the state, is expected to visit the local lodge next Tuesday evening.

Dr. C. J. Rumrill, who accompanied the Thresher brothers in their automobile on a fishing trip to Highgate, came home Wednesday.

Miss Florence Oney has severed her connection with the Totman greenhouse and is succeeded there by Robert Bruce, who will work for a time.

Mr. and Mrs. Frank Kennedy motored from Rochester Tuesday night and remained over night with Mr. and Mrs. C. N. Stockwell, and Wednesday morning the entire party went by auto to Northfield Falls for the day.

ST. JOHNSBURY.

Preparations Being Made for the Vermont Tennis Tournament.

The United States National Lawn Tennis association has assigned the date of August 9, 1909, for the beginning of the tenth annual tennis tournament of Vermont. This contest for the state championship will be held at the grounds of the Old Pine Golf club of St. Johnsbury. The events to be contested at the coming tournament are as follows: Championship singles. The winner of the singles will be required to play Frank H. Harris, the present state champion, and the winner of this match will be awarded the handsome silver challenge cup offered by the club in 1908. There must also be won three times by the same players in order to be come their permanent property.

Consolation singles. Open to players defeated in the first match actually played. A prize will be awarded to winners.

WEST BROOKFIELD.

Edward Boyce suffered a slight shock Tuesday.

Jetta Rogers has gone to Randolph to work for Mrs. Fred Jewett.

Lloyd Haggatt finished work for J. W. Blanchard Friday and is now at Carl Bowman's.

Miss Lottie Thresher, cashier for the Thresher silk store in Boston, is visiting friends in this place.

Frank O. Townsend of Ludlow, Mass., and Mrs. Charles Davidson of Northfield visited at Carl Bowman's last week.

A son was born to Mr. and Mrs. Merton Rogers July 18. Also a son to Mr. and Mrs. Harry Ferguson came to glad their home July 8.

Mr. and Mrs. Waldo Flagg of Nebraska came to visit Mr. Flagg's mother and his brother and sister, George Flagg and Mrs. L. S. Hutchinson.

Mr. and Mrs. Frank White of Winchester, Mass., came last Saturday for a few weeks' stay with Mrs. White's parents, Mr. and Mrs. Edgar Sanborn.

WILLIAMSTOWN.

Fred Whitney, a respected citizen, died Tuesday morning at the age of 55, following an operation for appendicitis a few days previous.

Services are to be resumed at the Free Baptist church, beginning Sunday, the 24th inst. Preaching service at 2 p. m.; Sunday school immediately following. Everybody cordially invited to both.

S. S. Humphreys and wife of Atkinson, Ill., were taken in Edison's automobile to South Royalton Tuesday morning and then started on their homeward trip. Mrs. Humphreys is a daughter of the late Mr. Seaver.

Crops are doing finely, especially corn. Some of the citizens are considering the matter of filling the road through the main part of the village, as a solution of the dust problem.

BETTER THAN A CURE.

It is well to cure a cold, but better to prevent it. As soon as you feel a cold coming on, take one or two "Lamp's Pleasant Quinine Tablets." You will not have a cold and the tablets will leave you feeling better than ever. They cure grip in a few hours. 25c a box at druggists and dealers.

Don't Forget the Date, Friday Morning, July 22nd

STAPLES-ALLEN COMPANY

MONTPELIER.

Death of Mrs. Austin Gore Occurred Yesterday in East Montpelier.

Mrs. Austin A. Gore died very suddenly yesterday at her home in East Montpelier, after only a few hours' illness. She had been suffering with a sick headache, but no more severe than many she had had before, until shortly before her death, when it increased in severity, bringing on convulsions. Mrs. Gore's maiden name was Villa Carnes, her parents being Mr. and Mrs. J. P. Carnes of Calais, where she married Mr. Gore 16 years ago, moving then to the farm in East Montpelier, where she died. Her age was 50 years. She is survived by her mother, who was visiting in Saranac, N. Y., at the time of Mrs. Gore's death, and a brother, Wallace, of North Montpelier. The funeral will be held from her late home to-morrow afternoon at 2 o'clock, with interment in the Otter cemetery. Mrs. Gore was a member of the Universalist church at East Montpelier, an officer in the Pythian Sisters and a member of Montpelier lodge, N. E. O. P.

Band concert Friday evening.

Charles Percin was able to walk down town yesterday for the first time in five months. He is 82 years of age, but in good health, except for rheumatism.

A book on the Indian wars, written by Daniel Clark Saunders, president of Middlebury college, which was published in Montpelier in 1812, sold recently in Boston for about \$100.

The directors of the Y. M. C. A. last night elected Floyd Hayford as a director to take the place of Fred E. Glascock, resigned. The association has had an increase in membership of ten in the last month.

The marriage of Miss Grace Louise Tupper of Bethel and Prof. Louis J. Rutledge of this city will occur at the Universalist church in Bethel, Wednesday evening, August 3. The afternoon of the same day Miss Mabel Ober and Harold Rodell Dutton, formerly of this city, but now of Middlebury, will be married in the Methodist church at Fort Jackson, N. Y.

Mrs. Asa George of Shady Hill will be laid up for some time as the result of a runaway accident, which occurred Monday. In latching up the horse, the head piece of the bridle was left loose, which frightened the animal and it ran, throwing Mrs. George and her two children out when the covered bridge was reached. The children were unhurt, but the ligaments of Mrs. George's feet were strained so that it will be some time before she will be around again.

A. D. Butterfield and George M. Best,

who are working under the United States geological survey, arrived here last night, and will have two months' work. It is estimated, in gathering data concerning the water power resources of this section. Engineer T. W. Norcross, who has been at work in other parts of the state, joined the men here. The survey is intended to give the mean flow for the year of the rivers, available sites for the development of water power and points as to the power already developed. After the data has been acquired, maps will be made, giving the facts as learned.

The executive committee of the Vermont Association of Fire Underwriters met yesterday afternoon at the Pavilion and it was voted to hold the annual meeting at the Waterbury inn, October 13, with a business meeting and banquet. The following were chosen to represent the association at the national convention, to be held in Chicago: H. H. Hinkock, Burlington; F. H. Burnham, Rutland; A. E. Watson, Hartford; F. H. Kelly, H. J. Norton, Bennington; Gen. T. S. Peck, Burlington; E. L. Walker, Bellows Falls; J. G. Brown, Montpelier; F. L. Brigham, Bradford; Eugene Campbell, Lyndonville.

STILL BLOODTHIRSTY.

Murderer of Wife and Child Now Threatens Others.

New York, July 21.—According to statements made in court yesterday, when leader Neuman, a 30-year-old east sider, was sentenced on his plea of guilty of murdering his wife and their infant son, his thirst for blood is unquenched. The mother and sister of the dead woman asked the court that the maximum sentence be imposed upon Neuman.

Mrs. Neuman's sister said that since he has been confined in the Tombs prison he had written, saying that some day he would kill them, too.

Judge Foster sentenced Neuman to not less than 20 years on the wife murder charge, and issued a bench warrant so that the prisoner may be re-arrested and brought up for sentence on the charge of cutting his child's throat afterward.

Assessors Quadruple Rockefeller's Taxes. Cleveland, July 21.—East Cleveland appraisers have placed a valuation of \$1,000,000 on John D. Rockefeller's Forest Hill estate. This is an increase of 300 per cent over the last appraisal, when the valuation was fixed at \$250,000. Mr. Rockefeller has not indicated if he will fight the appraisement.

HINTS THAT WILL ASSIST GOLFERS

Player Should Retain His Equilibrium When About to Drive—The Poise of One's Body.

One of the few canons of golfing style which no heretic has yet dared to dispute is that which advises the player to stand with his ball more nearly in line with his right toe as the distance to be covered by the shot diminishes.

Nowadays almost every one drives with the ball opposite a spot halfway between his heels or even two or three inches in front. But he plays his cleek shots with the ball farther back and in approach play usually stands so that the ball is almost opposite his right heel.

All this is most orthodox. But it is somewhat less usual to inquire why it should be so. However, does not the answer to this make plain the whole problem of stance, which is simply a matter of equilibrium and depends upon one simple rule—however you stand, you must have your weight so distributed that your center of gravity is opposite the ball at the moment of hitting it?

The reason is not difficult to see, and perhaps it may be a source of enlightenment as well as a help to have brought again to the notice of those golfers who are in the habit of pulling or slicing badly one fundamental idea.

An ordinary golf club is constructed so that if the ball is to be hit squarely the shaft must at that moment of impact be at right angles to the direction in which the player wishes his ball to travel—that is to say, the player's hand must be opposite the ball. If they are not the club face, as it comes in contact with the ball, cannot possibly be at right angles to the line of flight.

Produces a clear, soft light, easy to read and see by. Well made and ornamental. Can be used in any room. At dealers, or write our nearest agency.

STANDARD OIL COMPANY (Incorporated)

of flight, and a glancing blow resulting in a pull or slice is the inevitable result.

It is easy, however, for a golfer to prove for himself how the natural position of the hands in holding any two handed weapon, such as a golf club, depends upon the distribution of the weight of the body. Let him clasp his hands in front of him, then shift his weight on to his left foot and note how promptly his arms fall forward, like some delicate pendulum, in accordance with the change. Contrariwise, if he throws his weight on to his right foot and attempts at the same time to keep his hands well to the left as if he were going to play "off his left toe," he will realize that the position is one of constraint in which a powerful stroke is impossible.

It is this factor which makes it so awkward to play from an uneven or insecure stance. The player's weight has to be distributed differently from usual owing to the necessity of obtaining a firm footing, and, the natural position of his hands being thus altered, to play his ordinary stroke becomes impossible. Every golfer has experienced the fact that where some hillock or hollow in the ground prevents him from resting the same proportion of weight as usual upon each foot, though the stance is otherwise the same, he feels that he simply cannot play the stroke according to his accustomed method. Often he is constrained to play in some fashion quite untried and with complete success, because, as we must know, the most important thing is not that he should stand in a particular way, but that stance and swing should be suitable to each other. Golf, like fencing and other sports in which the demands that the poise of the body be reckoned as of the utmost importance.

Driving with the ball well forward and driving with it as far back as possible have each certain advantages, but neither is the slightest good unless the player is standing so that the natural position of the hands, that position into which they will fall at the lowest point of the stroke, is exactly opposite the ball. It is hardly necessary to prove that it is when the hands are in this natural position that the blow attains its greatest force. In theory it is quite sufficient that the body should be properly balanced at the moment of striking the ball. Accordingly swaying the body is not necessarily fatal to a good shot. In practice, however, the case is rather different, because when a player sways back with the upward swing of his club the chances are against him swaying forward to exactly the right degree in the down stroke. In any case, by swaying he is introducing a new and difficult factor into his calculations, and the less this factor is allowed to affect the conditions of the problem the better.

It is all very well to talk about the bad results which come from swaying or an awkward stance, but habits into which many golfers have grown. What interests them the most is how to avoid these pitfalls. An early visit to the club's professional and a couple of lessons ought to show the player just how to overcome his errors.

Camel Carriages.

Camel carriages are not common conveyances in most parts of India, but on the great trunk road leading to Delhi they are frequently to be seen. They are large, double story wagons, drawn sometimes by one, sometimes by two or even three camels, according to their size. Iron bars which give them a cage-like appearance were originally intended as a defense against robbers, and the carts were probably also used for the conveyance of prisoners.
